

Joy Gardner has had a large percentage of employees return this year from previous years of employment. This exemplifies the leadership skills that Joy possesses. Joy is well known for the way she treats her employees, whether it is corrective criticism or praise for a job well done. Working at the Water Park is a first job for a lot of the young people and with the leadership skills that Joy exhibits; she is helping to prepare these young people to work in the “real world”. Joy is always pleasant and has a smile on her face, always willing to help other departments, and is a great team player. With her leadership, the Water Park is very pretty and well maintained.

Joy was awarded Employee of the Month for July due to her tremendous hard work and efforts to make Wetlands one of the best attractions in this area.
