## History Comes to Life

While you journey through the streets of our well-preserved 18th century town, you'll learn the riveting tales of Daniel Boone, Andrew Jackson, David Crockett, John Sevier, and so many other national treasures of years past. As the Oldest Town in Tennessee, Jonesborough is still adorned with many buildings from as far back as the late 1700s, when those historic figures first began to make their mark on the country.

Today in Jonesborough, the streets are alive with the arts, shops, and eateries, and our

Town is known as the Storytelling Capital of the World. Throughout the year, families from across the globe visit us for events like the National Storytelling Festival, our magical Christmas festivities, and the Garden Gala, and during the summer months, the Farmers Market, Music on the Square and Storytelling Live! Teller in Residence.

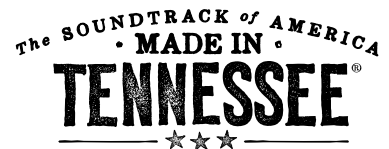

We have a little something for everyone. Come visit us in Jonesborough and start telling your own story.

## A Town of Firsts

Known as the Storytelling Capital of the World, Jonesborough is home to the first and only annual National Storytelling Festival. But we celebrate many other firsts as well! Jonesborough's story begins in the 18th century, when we were the first capital of the autonomous State of Franklin, established in 1784. In addition, our historic district was among the first from Tennessee to be listed on the National Register of Historic Places; and we housed the first publisher of a periodical devoted solely to the abolishment of slavery.

## The Great Stage Road

During this time, tales of fertile lands circulated through America's eastern colonies. These stories drew hundreds of people from Virginia, Maryland, Pennsylvania, and overseas to travel the Great Stage Road by oxen-pulled wagons, coaches, and horseback with their lives in saddlebags.

Jonesborough, established as a county seat of government by North Carolina, attracted settlers with its courthouse and Main Street. Jonesborough was an important stopping point for settlers heading west, a place where they could restock before daring to attempt those early routes.

Our stories are the undeniable remnants of these daring times. They speak of the rise and fall of government, of duels fought, and of men dying in battle. This was a land explored by Daniel Boone and a home away from home for Andrew Jackson shortly before he

helped Tennessee become a state. Men like Boone and Jackson were considered rebels then, but are now the heroes of generations.

## Experience History First-Hand

Experiencing Jonesborough through a walking tour is the best way to hear the ongoing tales of Tennessee's Oldest Town. Our Heritage Alliance tour guides, dressed in late 19th and early 20th century-style clothing, will escort you through the streets of Jonesborough while sharing little-known facts and the story of the Town from past to present.

## The Chester Inn State Historic Site

Along the way, you'll visit Main Street's Chester Inn Museum, located in the heart of downtown. The museum chronicles the history of Jonesborough from its inception in 1779 to the present. Exhibits include information on the State of Franklin, a diorama

## The Chester Inn

Presidents such as Andrew Jackson, James K. Polk, and Andrew Johnson lodged here at various points in their travels through our area.

of Jonesborough in the 1850s, the history of the Chester Inn, and much more. The exhibits rotate quarterly to coincide with the seasons and Town events.

Many of the exhibits feature Jonesborough's extensive

collection of historic photos. The stories that are told just by viewing the photographs make more of an impact than words alone can express.

In addition to the Chester Inn Museum, throughout Jonesborough, visitors can see many of the Town's most historic buildings. These include the Oak Hill School, where children can experience a day in the life of a student in 1892; the Christopher Taylor House, built in the 1770s; and the Mansion House, built in 1843 by the Town's first postmaster.

## International Storytelling Center

With all of these stories to tell and many more, it's no wonder Jonesborough is considered the Storytelling Capital of the World. Our International Storytelling Center hosts listeners and tellers from across America, who gather to share tales both big and small through the Teller-in-Residence program and the Storytellers Guild. On the first full weekend in October each year, we host the renowned National Storytelling Festival, an event that has grown to receive as many as 10,000 listeners every year!

# The Arts *are alive*

## Spark Your Imagination

Jonesborough offers a thriving arts scene, with everything from theater to expert crafters to music and visual arts. But the scene wouldn't be complete without storytelling, which can be experienced at several locations throughout downtown, such as the International Storytelling Center, including Storytelling Live! from May to October.

The Jonesborough Storytellers Guild hosts performances each Tuesday evening throughout the year. And the Jonesborough Yarn Exchange, our original storytelling radio hour, performs live the fourth Monday of each month. Visit [Jonesborough.com](http://Jonesborough.com) for admission information and event details.

Jonesborough Repertory Theatre offers everything from rich dramas and playful comedies to impactful music and inspiring dance, the theater performs a year-round schedule of shows for all ages.

In keeping with the Town's efforts of revitalization and preservation, the town is embarking on an exciting new preservation project with a full restoration of its 1940s Jackson Theatre. The facility will serve as a music venue, theater, and an independent film house.

For visual arts, visit the McKinney Center at Booker T. Washington School, which opened as a school in 1940 to instruct African-American children. The Center was named after Ernest L. McKinney, who was principal of the school and the Town's first black Alderman. Here you'll find exhibits and local artisan spotlights throughout the year, as well as the Mary B. Martin Program. This program offers world-class educational opportunities in drawing, painting, mosaics, theater, dance, and music.

## come over & Stay Awhile

### **Southern Hospitality**

Jonesborough hospitality began when our oldest commercial structure—the Chester Inn—opened its doors to guests in 1797. In that same year, the foundation for the Historic Eureka Inn was built. Although initially a residence, the building was expanded and 100 years later, guests were welcomed to the Eureka Hotel. Although the name

has changed twice, today the establishment's full restoration celebrates the glory days of 1900, and history has been reclaimed using "Eureka" in its current name—the Historic Eureka Inn.

In addition to beautifully preserved establishments, Jonesborough offers a variety of other lodging options
